ESPUMIFERO AR AFF 3-6% UL LISTED CERTIFIED

SKUM ARC 3X6 UG 3% x 6% AR-AFFF Concentrate

Description

SKUM ARC 3X6 UG (Alcohol Resistant Aqueous Film-Forming Foam) Concentrate combines fluor- and hydrocarbon-surfactant technologies to provide superior fire and vapor suppression for Class B, polar solvents and hydrocarbon fuel fires. This synthetic foam concentrate is intended for firefighting applications at 3% solution for hydrocarbon fuels and at 6% solution for polar solvent fuels in fresh, salt, or hard water.

SKUM ARC 3X6 UG foam solution utilizes three suppression mechanisms intended for rapid fire knockdown and superior burnback resistance:

- The foam blanket blocks oxygen supply to the fuel.
- Liquid drains from the foam blanket and forms either:
 - An aqueous film on a hydrocarbon fire, or
 - A polymeric membrane on a polar solvent fire which suppresses the vapor and seals the fuel surface.
- The water content of the foam solution produces a cooling effect for additional fire suppression.

TYPICAL PHYSICOCHEMICAL PROPERTIES AT 20 °C

| | |
|-----------------------|-----------------------------------|
| Appearance | Viscous Yellow Liquid |
| Density | 1.00 ± 0.02 g/ml |
| pH | 7.5 - 8.5 |
| Refractive Index | 1.3480 minimum |
| Viscosity* | 1400 ± 300 cP |
| Sediment** | < 0.25% |
| Spreading Coefficient | 3 dynes/cm minimum at 3% dilution |
| Pour Point | -3 °C |
| Freeze Point | -6 °C |

*Brookfield Viscometer Spindle #6, speed 60 rpm

**EN 1568-3000 protocol

SKUM ARC 3X6 UG Concentrate is a non-Newtonian fluid that is both pseudoplastic and thixotropic; therefore, dynamic viscosity will decrease as shear increases.

The SKUM ARC 3X6 UG Concentrate formulation contains short-chain, C-6 fluorosurfactants manufactured using a telomer-based process that does not produce PFOS.

Approvals, Listings, and Standards

SKUM ARC 3X6 UG Concentrate is approved, listed, qualified under, or meets the requirements of the following specifications and standards:

- UL Standard 162, Foam Liquid Concentrates

Application

SKUM ARC 3X6 UG Concentrate is intended for use on both types of Class B fires: hydrocarbon fuels with low water solubility, such as crude oil, gasoline, diesel fuels, and aviation fuels; and polar solvent fuels with appreciable water solubility, such as methyl and ethyl alcohol, acetone, and methyl ethyl ketone. It may also be used in conjunction with dry chemical agents to provide even greater fire suppression performance.

SKUM ARC 3X6 UG Concentrate can be ideal for fixed, semi-fixed, and emergency response firefighting applications such as:

- Fuel or chemical storage tanks
- Industrial chemical and petroleum processing facilities
- Truckload loading and unloading facilities
- Flammable liquid containment areas
- Docks and on-board marine systems
- Mobile equipment

INFORMAÇÃO TÉCNICA

SOLVEDY RW (RIG WASH)

DESENGORDURANTE MULTIUSO BIODEGRADÁVEL

| | | |
|------------------|--|--|
| DESCRIÇÃO: | Recomendado para limpeza e manutenção de instalações equipamentos industriais, lavagem de motores, desengordurante em cozinhas, fogões, exaustores e pavimentos. | |
| PROPRIEDADES: | Produto isento de solventes. Penetra e liberta rapidamente a fuligem e todo tipo de gorduras. Económico, devido à sua elevada concentração. Não inflamável. | |
| MODO DE EMPREGO: | Aplicar o produto diluído em água entre 10 % e 50%, conforme o efeito pretendido, por pulverização, esfrega, imersão ou por máquina de auto pressão. | |
| PERIGOSIDADE: | X1 - (Irritante) S 1/2 - Guardar fechado à chave e fora do alcance das crianças. S 24/25 - Evitar contacto com os olhos. S 26 - Em caso de contacto com os olhos, lavar de imediato com água abundante e consultar um médico. S 45 - Em caso de acidente ou indisposição, consultar um médico. | |
| CARACTERÍSTICAS: | Aspecto do produto a 100% Cor do produto a 100% pH solução a 1% Aroma intenso | - Líquido limpo - Verde - Min. - 11,5 Máx. - 12,5 |
| EMBALAGEM: | Plástica de 20Litros / tambor de 210 litros / IBC 1000Lts | |

MARINE SAFETY EQUIPMENTS

FULL BODY HARNESS SL 10100

- A Dorsal attachment D-Ring for Fall Arrest.
- Adjustable chest, shoulder and thigh straps.
- Shoulder and thigh-straps differentiated by a dual colour scheme.
- Ideally positioned sit-strap for extended comfort.
- Certified to EN 361:2002.

ENERGY ABSORBING FORKED WEBBING LANYARD SL 25100

- Made of 44mm Wide Webbing.
- Available Length: 1.5 mtr, 1.8 mtr and 2.0 mtr.
- Equipped with Screw Locking Karabiner (112) with Energy Absorber at one end and two Steel Scaffold Hooks at other end.
- Certified to EN 355:2002 + VG 11/PPE 63 (Additional Static Strength Test).

* Quarter turn Locking Karabiner is also available instead of Screw Locking Karabiner.

ENERGY ABSORBING WEBBING LANYARD SL 15100

- Made of 44mm Wide Webbing.
- Available Length: 1.5 mtr, 1.8 mtr and 2.0 mtr.
- Equipped with Screw Locking Karabiner (112) with Energy Absorber at one end and Steel Scaffold Hook at other end.
- Certified to EN 355:2002.

* Quarter turn Locking Karabiner is also available instead of Screw Locking Karabiner.

FULL BODY HARNESS WITH PERMANENTLY ATTACHED LANYARD SL 101106

- A Dorsal attachment D-Ring for Fall Arrest.
- Adjustable chest, shoulder and thigh straps.
- Ideally positioned sit-strap for extended comfort.
- Shoulder and thigh-straps differentiated by a dual colour scheme.
- The Lanyard of 1.8 mtr spliced at the Dorsal D-Ring is made from Polyamide Twisted Rope of dia 12 mm having Scaffold Hook PN 131 at the anchorage end.
- Length of the Lanyard is 1.8 mtr.
- Certified to EN 361:2002 and EN 354:2002.

FULL BODY WORK POSITIONING HARNESS SL 10200

- A Dorsal Attachment D-Ring for Fall Arrest.
- Lateral D-Rings are provided for Work Positioning at height.
- Adjustable shoulder, chest and thigh straps for wearing comfort.
- Shoulder and thigh-straps differentiated by a dual colour scheme.
- Ideally positioned sit-strap for extended comfort.
- Certified to EN 361:2002

Gripton Introduction

Gripton is a U.K. based company involved in the manufacture of high quality lifting gear. We specialise in controlling all stages of the production process, from sourcing the correct high grade raw materials to providing an aesthetically pleasing finish to the products. All of this is providing the most cost-effective and highest quality lifting equipment available in the market.

Our teams of approved engineers, who have a collective experience of approximately 20 years in the lifting equipment industry, combined with professional quality, ensure that all of our lifting equipment is tested and certified before dispatch. This makes our lifting gear in-line with only the latest British and other essential standards.

In addition, of paramount importance, is our safety measures that meet leading safety standards at all of our facilities. Our company recognises the importance of occupational safety in which ever market it operates in, whether it is directly or through an appointed agent.

Finally, we ensure all of our customers, potential & existing that our products will exceed in terms of delivery time, quality and price. More importantly, we aim to establish long term business relationships and to continue to meet and exceed our partner's expectation in the years ahead.

Fire Proof Endless Type

- The **Gripton** round sling produced by high strength, heat resistant aramid fiber.
- This round sling is light, soft, flame-retardant, heat-resistant, excellent abrasion resistance, high strength and low elongation, high safety **factor**, long life, non-conductive, non-electric **danger**, have a good chemical corrosion **resistance**.
- Apply to flame, sparks, high temperature **environment**, use of temperature range from -40°C to 180°C, half diameter of ordinary lifting belt.
- Working load limit from 1T to 20T.
- safety factor 7:1

25

Flat Webbing Slings

We manufacture flat webbing slings as per European Norm, EN1462-1 with a safety factor of 7:1.

Label on each sling is **colored** to indicate load limit (WLL) & **length** of the sling (EWL).

Webbing slings are made from high tenacity 100% polyester (PES) webbing material.

These slings have the following advantages:

- Low weight, therefore offering easy handling
- Protection against hand injuries
- Protection against cargo surface damage
- Highly flexible and adaptable to given shapes
- UV-resistant, eliminating material ageing or **breakdown**
- Heat resistant up to 100°C
- Water - resistant fabric, preventing frost damage (down to -40°C)
- Colour** coded as per latest EN 1462-1

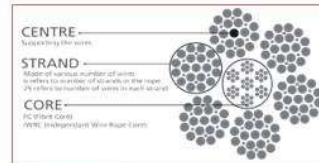

26

Drum Lifter

This Drum Lifting is used for your hoist hook or fork mounted hook. Forged hooks are shaped to enhance the rims of drum.

27

28

Cargo Securing Equipment

Load Binder

Load binder is the professional way to tiedown large loads. Big handles and carbon steel construction for maximum leverage. Greater **strength** and easy handling. Ideal for truck mounted loads. Ratchet motion makes load tightening faster and **easier** and permits quicker tightening if the load shifts. Equipped with double hooks.

Ratchet Cargo Lashing assembly

- Made with 100% polyester webbing
- MBL of ratchet lashings: 1 ton, 5 ton, 10 ton and 12 ton

29

Turn Buckle

is a device for adjusting the tension or length of ropes, cables, tie rods, and other tensioning systems. It normally consists of two threaded eye bolts, one screwed into each end of a small metal frame, one with a left-hand thread and the other with a right-hand thread. The tension can be adjusted by rotating the frame, which causes both eye bolts to be screwed in or out simultaneously, without twisting the eye bolts or attached cables.

Hand winch

- Exposed** mechanical parts
- Automatic brake
- Adjustable & dismounted crank
- 2 securing planes horizontal or vertical (according to model)
- Can be unlatched when off-load, whilst impossible to **unlock**
- Highly rugged design, thanks to the exceptional rigidity of the **frame**

Hand winch for using:

- Upgrade a wire transfer, loading & unloading heavy objects, etc.
